

ALL BLACK

High Efficiency

Module efficiency up to 23.2% based on N-Type wafer and TOPCon technology

Anti-degradation

Unsusceptible to LID, LeTID and less annual degradation due to special characteristics of N-Type

Excellent Energy Yield

More power output in field operation due to better thermal behaviors, weak-light performance and bifaciality

Quality Guarantee

High module quality ensures long-term reliability

15-Year
Product Warranty

30-Year
Linear Power Warranty

1%
First Year Degradation

0.4%
Annual Power Degradation
